INTRODUCTION

Nanomedicine is changing how medicines are designed, protected, transported and delivered to specific tissues and cells. Lipid nanoparticles, nanocarriers, biomimetic systems, nucleic acid delivery and targeted nanomedicine are opening the way to a new generation of treatments.

NANO•DELIVER 2027 is a focused international meeting on the science, engineering and translation of nanomedicine and nanoscale drug-delivery technologies. It brings together researchers from universities, pharmaceutical and biotechnology companies, technology developers, clinicians and regulatory experts to look at how nanoscale engineering can overcome biological barriers and improve the way treatments reach their target.

The programme follows the whole journey: from nanocarrier design and nano–bio interactions, to targeting and responsive delivery, manufacturing, safety and clinical translation.

Participants come from leading academic, government and industry laboratories in many disciplines. They attend to discover new technology trends, development tools, product opportunities, research partners and commercial partners. The programme includes plenary and keynote lectures, oral presentations and poster sessions given by academic and industry speakers, and it is an excellent opportunity for students to meet leading researchers.

NANO•DELIVER 2027 is held jointly with the following conferences. One registration gives access to all of them:

- **EuroDD 2027** – European Drug Delivery Congress
- **NanoTox Connect 2027** – International Conference on Nanotoxicology, Safety, Sustainability & Innovation
- **NANOPARTICLES NEXUS 2027** – International Conference on Nanoparticles: Science, Innovation and Applications

AT A GLANCE

Dates	10 – 12 March 2027
Venue	Novotel Paris Rueil-Malmaison, 21 avenue Edouard Belin, 92566 Rueil-Malmaison (Paris), France
Format	Plenary and keynote lectures, oral presentations, poster sessions and exhibition
Registration	One registration gives access to all four conferences, so exhibitors and sponsors meet the delegates of all four events.

SCIENTIFIC TOPICS

1. **Nanocarriers & Advanced Nanoscale Delivery Systems**
2. **Lipid Nanoparticles & Nucleic Acid Delivery**
3. **Nano–Bio Interfaces & Targeted Nanomedicine**
4. **Smart, Responsive & Bioinspired Nanodelivery**
5. **Nanoformulation, Manufacturing & Translation**
6. **Safety, Regulatory Science & Future Nanomedicine**

WHY EXHIBIT OR SPONSOR

- **Meet the right people.** Present your products and services to researchers, clinicians, industry and regulatory experts active in nanomedicine and drug delivery.
- **Reach four audiences at once.** The exhibition is shared by four joint conferences, so your stand is seen by the delegates of all of them.
- **Build your reputation.** Strengthen your company's standing in the scientific community and increase your visibility before, during and after the event.

- **Find new business.** Meet potential customers, partners and collaborators in a focused, friendly setting with plenty of networking time.
