INTRODUCTION

Nature has spent millions of years developing materials that are strong, light, self-healing and fully recyclable. Learning from nature, and using renewable biobased resources, is one of the most promising ways to create the sustainable materials of the future.

3Bs MaterialsTech 2027 is a leading international conference on biobased, bioinspired and biomimetic materials. It brings together researchers, engineers and industry experts working on materials inspired by, or made from, nature.

The programme covers bioinspired and biomimetic design, biomimetic materials and interfaces, adaptive and intelligent systems, computational and AI-guided biomimetics, functional applications, biobased materials and sustainability, and new horizons for biomimetics beyond biology.

Participants come from leading academic, government and industry laboratories in many disciplines. They attend to discover new technology trends, development tools, product opportunities, research partners and commercial partners. The programme includes plenary and keynote lectures, oral presentations and poster sessions given by academic and industry speakers, and it is an excellent opportunity for students to meet leading researchers.

3Bs Materials 2027 is held jointly with the following conferences:

- **Polymers 2027** – Polymers International Conference
- **Composites 2027** – Composites International Conference

AT A GLANCE

Dates	12 – 14 May 2027
Venue	Rome, Italy (venue to be announced)
Format	Plenary and keynote lectures, oral presentations, poster sessions and exhibition

SCIENTIFIC TOPICS

1. **Bioinspired & Biomimetic Design**
2. **Biomimetic Materials & Interfaces**
3. **Adaptive & Intelligent Bioinspired Systems**
4. **Computational & AI-Guided Biomimetics**
5. **Translational & Functional Biomimetic Applications**
6. **Biobased Materials & Sustainability**
7. **Cross-Cutting Horizons: Biomimetics Beyond Biology**

WHY EXHIBIT OR SPONSOR

- **Meet the right people.** Present your products and services to researchers, clinicians, industry and regulatory experts active in biobased, bioinspired and biomimetic materials.
- **Reach three audiences at once.** The exhibition is shared by the three joint conferences, so your stand is seen by the delegates of all of them.
- **Build your reputation.** Strengthen your company's standing in the scientific community and increase your visibility before, during and after the event.
- **Find new business.** Meet potential customers, partners and collaborators in a focused, friendly setting with plenty of networking time.
